ROLLY NRG

NRG, NEW ROLLY GENERATION IS THE NEW ROLLY COMPACT SCRUBBER DRYER SERIES, EVEN MORE PERFORMING AND RELIABLE FOR TOP CLEANING RESULTS! NRG SUCH AS ENERGY, POWER, BUT ALSO INNOVATION: AN INTEGRATED SYSTEM OF TECHNICAL SOLUTIONS ABLE TO MEET THE NEEDS OF THE MOST DEMANDING CLEANING PROFESSIONALS.

ROLLY NRG 7 1/2

ROLLY NRG 7 1/2

E33

ELECTRIC VERSION

ROLLY NRG 7 1/2

M33 BC 10 AH

**BATTERY CHARGER 24V 5A,
CASE BATTERIES LITHIUM 24V 280 W**

ROLLY NRG 7 1/2

M33 BC 20 AH

**BATTERY CHARGER 24V 5A,
CASE BATTERIES LITHIUM 24V 560 W**

Ergonomic handle (patented), with integrated unlocking system, for an easy cleaning under chairs, tables...

Rear pivoting wheels: max manoeuvrability and control.

ROLLY NRG 11

CASE BATTERIES LITHIUM
24V 280 W

ROLLY NRG 11

M33 BC 20 AH

BATTERY CHARGER 24V 5A,
CASE BATTERIES LITHIUM
24V 560 W

Combined brush head/squeegee system: cylindrical brush with three down pressure levels (by knob), twin squeegee with alternating suction system (patented).

A UNIQUE MIX OF DISTINCTIVE SOLUTIONS MAKES ROLLY THE PERFECT COMPACT SCRUBBER DRYER

WHERE NO ONE ARRIVES

COMFORT IN NARROW SPACES

SO TINY! All the Rolly machines (above all Rolly 7 1/2) are extremely compact, so ideal for narrow spaces, where no other scrubber dryer can go and work.

A SPECIAL HANDLE, ergonomic, foldable for the best comfort ... but above all unlockable (patented). Just one click on the front lever and the handle frees itself. This allows Rolly to go and work under tables, chairs... wherever you need her!

BIG POWER IN A SMALL CASE

DURABILITY, RELIABILITY, RUNNING TIME, LIGHTNESS... ALL IN A SIMPLE CASE!

Rolly is a really amazing scrubber dryer, hosting the last generation powerful batteries inside a case! Thanks to this it can work for a long time without any stress in any kind of environment.

DURABILITY: lithium batteries really last for more than 1000 life cycles. Unbeatable long time investment!

RELIABILITY: batteries not affected by plug in/out; the operator can recharge them whenever and how long he wants (even partially) w/o any risk of damage...more than 1h running time with the 10Ah batteries, the double with the 20Ah ones.

LIGHTNESS,: only 2,4 kg (10 Ah) and 3,6 kg (20 Ah) contained in a practical case, easy to be transported and installed by everybody.

SIMPLE AND FAST

PEERLESS PERFORMANCE

Brush head and squeegee system, combined together, perfectly optimize cleaning and drying performance, with amazing results, so making Rolly the ideal solution for small or crowded cleaning areas.

Top cleaning effects: the cylindrical brush deck assure the best cleaning performance on every kind of floors, in the uneven ones or the ones with relevant (grout lines included), adjustable down pressure by knob... against every kind of dirt.

An unbelievable squeegee system! Alternate twin squeegee system: for sure one of the main innovations. How it works is incredibly simple: working frontward the front squeegee immediately closes and the rear one can work more efficiently, going backward exactly the opposite. The results are immediately and clearly visible: top drying results and optimized consumptions at the same time.

Retractable squeegee arms: both the arms go inside the brush head when hitting hobstacles (coming out again when the hobstacle has been passed); for the maximum reliability and agility when working.

Incredibly quiet: as soon as you push the silent mode function on the control panel Rolly becomes immediately more quiet (54 dbA). Ideal for day cleaning and in all the environments (hospitals, rest homes,...) where silence is a "must".

USER FRIENDLY

A START AND GO MACHINE

Intuitive contro panel: all the main working functions can be selected and managed directly by the control board, three buttons and three leds to have the situation always under control. **One Touch Button**, to activate all the Rolly's functions together by default. So Rolly is a start and go machine, immediately ready for use (no trainings required).

EASY MEANS...

...YOU CAN GO AND WORK WHEREVER YOU WANT

Compact and reactive, Rolly perfectly works in every environment. Its dimensions, combined with the new handle with unlocking system, guarantee the best cleaning results, even in congested areas and in narrow spaces. The swivel wheels assure the max manoeuvrability.

...USER FRIENDLY

Intuitive control panel. Machine easy to set up... everything always under control. "Coloured" parts levers, knobs, ...clearly indicate where the user can "put the hands" preparing the machine for work or while using it.

... EASY TO FILL AND DRAIN

Solution tank: easy to transport and fill (under sink, tap ...). Practical cover with percentage graduation for chemical dosage. Recovery tank: foldable and removable, thanks to its click-clack system it perfectly seals the recovery tank, so avoiding any water leaking effect either in transport or while working. The tank can be easily transported and drained like a bucket.

...EFFORTLESS MAINTENANCE

Immediate brush click on/off system (by button). Sliding brush deck. Squeegee blades simple to install/remove.

...ROLLY HOSTS IN A COMPLETE COMFORT THE LITHIUM BATTERIES: THE POWER IN A CASE

Nothing to extract, remove, prepare for the batteries location. They stay inside a practical case which can be promptly inserted in the back of the machine.

... EASY TO TRANSPORT, PARK, STORE

Rolly is really small and above all light (only 23 kg). When it is not in action it can be moved, parked or stored everywhere without any effort

... MANY ACCESORIES, TO MATCH EVERY SPECIAL NEED

The standard equipment of all the Rolly variants is really rich. In addition there is a wide range of accessories (batteries, charger, brushes, pads,...) to wear Rolly in the best way in every situation

ROLLY NRG

**EVEN MORE
EFFICIENT
AND RELIABLE!**

**MORE AGGRESSIVE CHEMICALS
CAN BE USED COMPARED
TO PREVIOUS MODELS***

**IT IS POSSIBLE TO USE
WATER AT 50 °C**

**MAXIMUM PROTECTION
AGAINST WATER,
IT IS IDEALLY SUITED
FOR USE IN DAMP
ENVIRONMENTS**

**A NEW AND WIDE RANGE OF
PADS, SUITABLE FOR ALL NEEDS**

RED CYLINDRICAL PAD

Cylindrical pad suitable for regular maintenance; cleaning sign removal.
cod. 40.5000.12

GREEN CYLINDRICAL PAD

Cylindrical pad suitable for partial wet stripping of not coated hard surfaces, for preparing hard surfaces before new coating and for stripping of linoleum and vinyl surfaces.
cod. 40.5000.13

BLACK CYLINDRICAL PAD

Cylindrical pad suitable for the total wet stripping of hard surfaces with chemical stripping agents. Also suitable for heavy cleaning tasks on cement and industrial floors.
cod. 40.5000.14

MICROFIBER CYLINDRICAL PAD

Cylindrical pad suitable for structured surfaces (microporous), or delicate ones (wood and parquet). Surfaces treated with wax wood.
cod. 40.5000.04

MELAMINE CYLINDRICAL PAD

Cylindrical pad suitable for cleaning microporous gres stoneware floors only with water, without chemical. It removes all black marks from floors with minimal abrasive action. It reduces cleaning times and costs.
cod. 40.5000.10

*the use of chemical products with a pH 1 to pH 14, concentration at 10% dilution is permitted. Before use we strongly recommended to consult the technical data sheet of the chemical products.
